 Produced and Directed by—Johnny Jay

## The Fun Machine

The DYNAMIC FUN MACHINE (Johnny Jay and Stan Kerler) are recognized as one of the most exciting Instrumental-Vocal-Dance-Entertaining duos in show business. As a matter of fact, Johnny and Stan almost always are at their best when they appear in rooms which normally feature trios and quartets and even larger groups. Johnny and Stan play a total of 10 instruments; their music for dining and dancing is excellent; they have a tremendous repertoire of instrumental and vocal novelties; and an almost endless array of floorshow-type entertainment and comedy, some of it risqué where the audiences prefer salty stories.

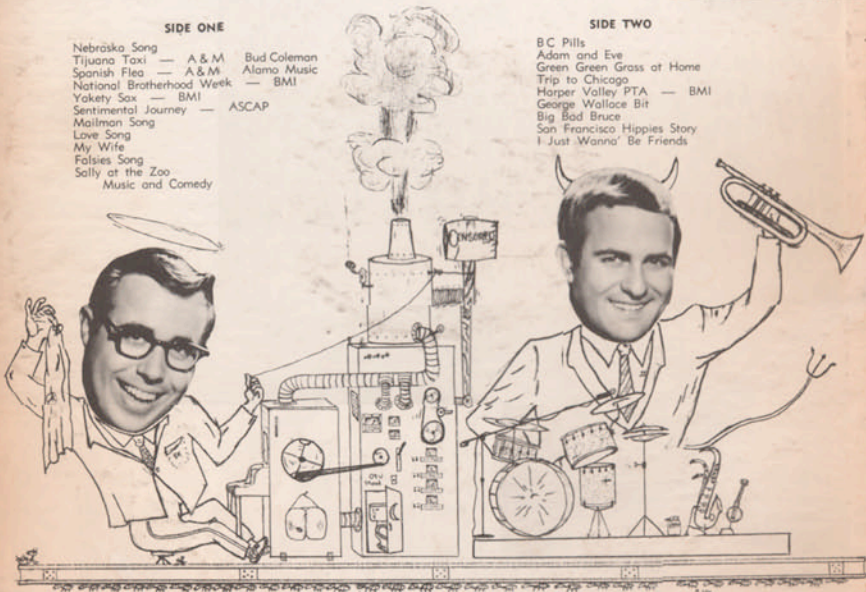

### SIDE ONE
