MEET THE BAKERS:

ISABEL brings this album to you singing from the heart, as all the songs are her own. It is the sole intention to bring an anointed message which is noted in the variety of songs chosen. Knowing Isabel is only sixteen years old with her deep consecrated life is an inspiration in itself. Her emphatic delivery both in ministry and song, is a real challenge to teenagers as she sings them into the Kingdom on the silver strains of love.

EVANGELIST GEORGE BAKER has a stirring message which pushes lukewarm souls from the pit of hell and builds them as Living Stones into the body of Christ. His surrendered life and drawing personality makes him a blessing wherever he goes.

MRS. BAKER's sincere prayer is that this album be used to allow all people who hear it to feel His presence. She is a great prayer warrior and blessing to all she meets.

This is a consecrated family God is using in this time. This family accepts the challenge of the day and believes that Calvary is the only answer for humanity, as is noted in the title of their ministry "The Challenge Of Calvary Ministry Incorporated".
